

# Marlloyd I. Honrado

Web Developer

honradomarlloyd@gmail.com | +63 908 138 1680 | Philippines

## SUMMARY

Web developer specializing in modular SaaS applications with Nuxt and Laravel. Shipped production features for a live web platform, including dynamic form builders, analytics modules, and AI integrations. Backed by 4 years of IT support experience and a UI/UX foundation that bridges clean design with functional code. Leverages AI tools like Claude Code to ship faster.

| Design   | Figma, Adobe Illustrator                         |
| Tools    | Git, GitHub, VS Code, Claude Code, ChatGPT Codex |

## WORK EXPERIENCE

### Web Developer 2025 – 2026

AWORK A/S — Denmark (Remote)

CitizenOne — app.citizenone.dk

- **Dynamic Forms** — Built a form builder that lets end-users define and create their own forms on the fly, capturing only the data they need instead of relying on rigid, predefined templates.
- **Development Analytics** — Developed a module for tracking individual user growth and engagement over time through presence and absence records.
- **Custom AI Integration** — Implemented support for users to connect their own AI provider to the platform via personal API keys.
- **Global Notifications** — Built a centralized notification system that keeps users informed of activity across the app (e.g. expired follow-ups, journal notes, and more).
- **General fix** — Fix bug on live that client reported.

Obiyen — app.obiyen.com

- **Quality Assurance** — Performed systematic QA testing and documented bugs that were subsequently patched by the development team.

### IT Support Technician 2022 – 2026

Hulid Elementary School — Philippines

- **Hardware Maintenance** — Maintained and upgraded desktops and peripherals across school IT systems.
- **Troubleshooting** — Diagnosed and resolved connectivity, hardware, and software failures to minimize downtime.
- **System Recovery** — Reformatted machines and cloned drives to restore failed workstations to full operation.
- **Workstation Setup** — Configured and deployed workstations for teaching and administrative staff.
- **Concurrent Support** — Delivered full technical support while completing a full-time BS in Information Technology.

## EDUCATION

### BS Information Technology 2022 – 2026

STI College Davao — Davao City, Philippines

### Senior High School — STEM 2020 – 2022

Davao City National High School — Davao City, Philippines
