TECHNICAL SKILLS

Frontend	HTML, CSS, JavaScript, Vue.js, Nuxt, REST API
Backend	PHP, Laravel, Node.js, MySQL
Design	Figma, Adobe Illustrator
Tools	Git, GitHub, VS Code

WORK EXPERIENCE

Web Developer 2025 – 2026

AWORK A/S — Denmark (Remote)

CitizenOne — app.citizenone.dk

- **Dynamic Forms** — Built a form builder that lets end-users define and create their own forms on the fly, capturing only the data they need instead of relying on rigid, predefined templates.
- **Development Analytics** — Developed a module for tracking individual user growth and engagement over time through presence and absence records.
- **Custom AI Integration** — Implemented support for users to connect their own AI provider to the platform via personal API keys.
- **Global Notifications** — Built a centralized notification system that keeps users informed of activity across the app (e.g. expired follow-ups, journal notes, and more).

Obiyen — app.obiyen.com

- **Quality Assurance** — Performed systematic QA testing and documented bugs that were subsequently patched by the development team.

IT Support Technician 2022 – 2026

Hulid Elementary School — Philippines

- **Hardware Maintenance** — Maintained and upgraded desktops and peripherals across school IT systems.
- **Troubleshooting** — Diagnosed and resolved connectivity, hardware, and software failures to minimize downtime.
- **System Recovery** — Reformatted machines and cloned drives to restore failed workstations to full operation.
- **Workstation Setup** — Configured and deployed workstations for teaching and administrative staff.
- **Concurrent Support** — Delivered full technical support while completing a full-time BS in Information Technology.

EDUCATION

BS Information Technology 2022 – 2026

STI College Davao — Davao City, Philippines

Senior High School — STEM 2020 – 2022

Davao City National High School — Davao City, Philippines
